

CARLOS EDUARDO PEREZ

Research Assistant

Carlos E. Perez is a Civil Engineer, graduated from the University of Zulia, and currently a member of the staff at the Structures and Materials Laboratory at the University of Miami. In his current role, he is actively involved in activities focused on continuous improvement and the optimization of projects through both applied and fundamental research on innovative materials—from concrete to advanced composites. Carlos is committed to developing solutions that contribute to progress and sustainability in the construction industry.

Fun Fact: One of Carlos's favorite activities is visiting sports stadiums—a perfect blend of his two great passions: sports and a deep appreciation for the architectural, structural, and construction designs of these iconic spaces.
